

Welcome

Art 3205 - Applied Typography
Presented by Hovie Hawk
Owner / Creative Director
Design Hovie Studios

Who is Hovie Hawk?

Founder and creative director of Design Hovie Studios, a local, international design boutique based in Seattle and Chelan

Since 1993, involved in the creation of over 200 web sites, 150 logos, and a multitude of print material for small and large companies from all over the world

Hovie's Style?

Clean, minimal designs influenced by the Swiss / International design style

My goal is to create the most visual impact with the minimum amount of elements

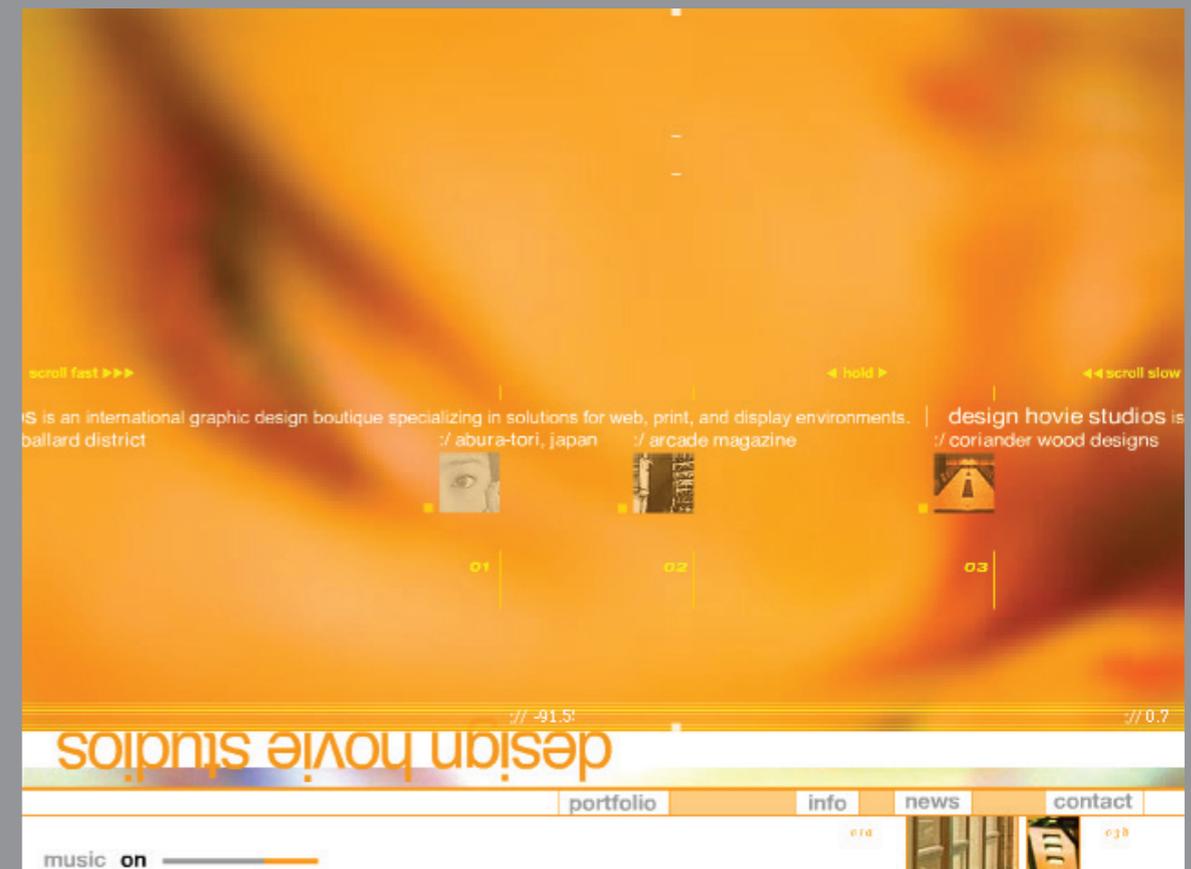

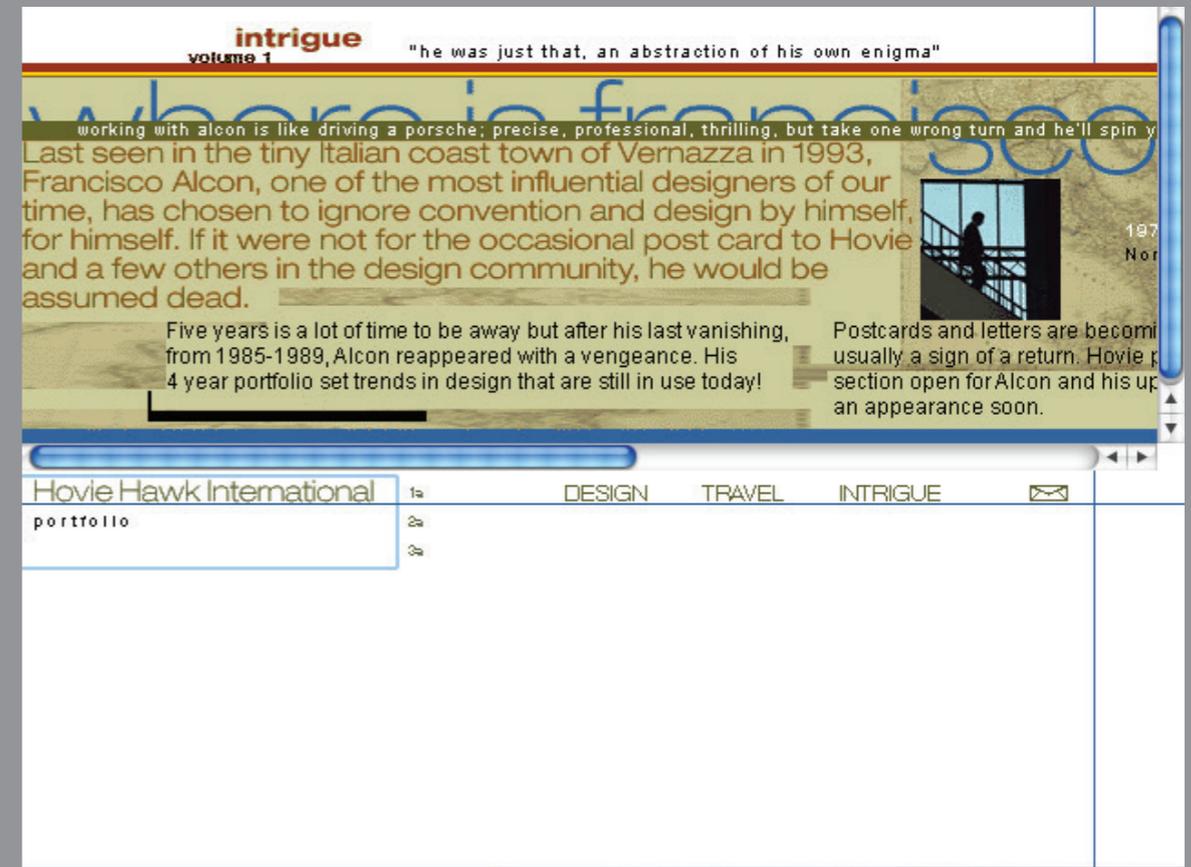

“Everything deserves to be designed well”

Design Evolution

Early work (1993-1999) was reflective of the Seattle 1990s scene with gritty, layered layouts

Work was exciting and energetic, but lacked a mainstream, commercial appeal for final solutions

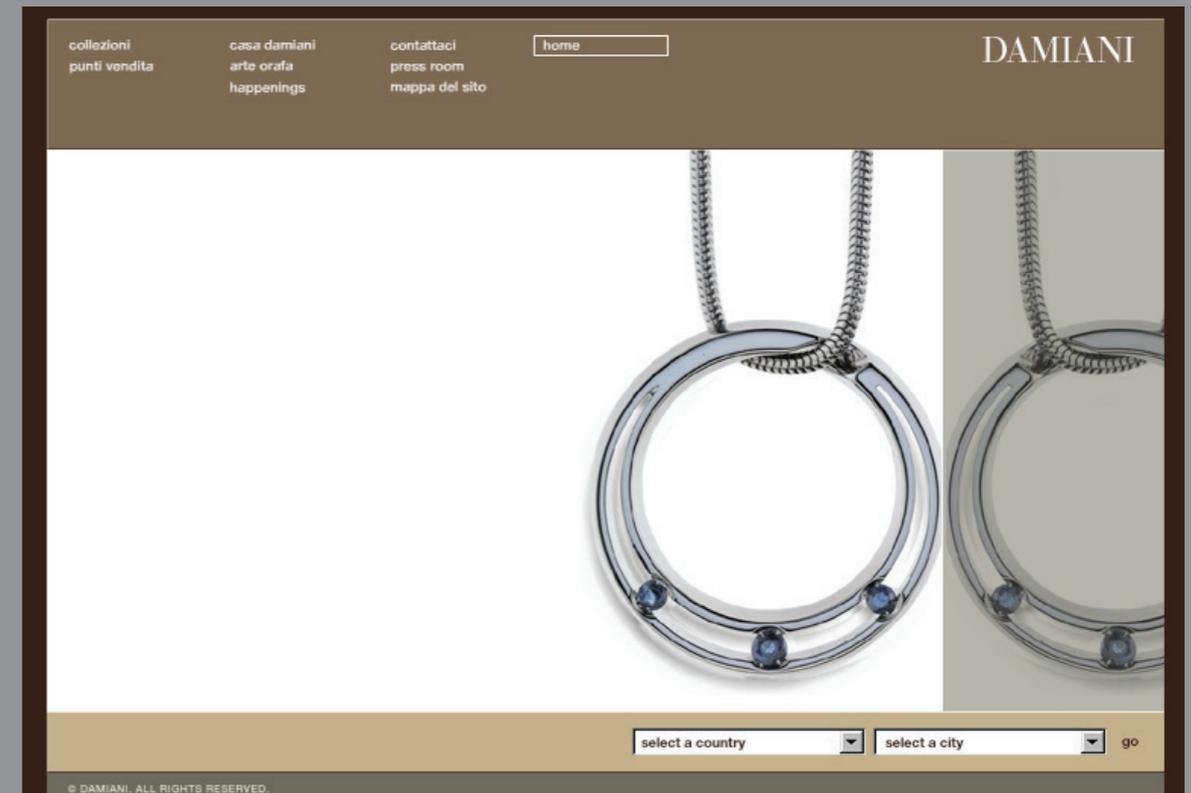

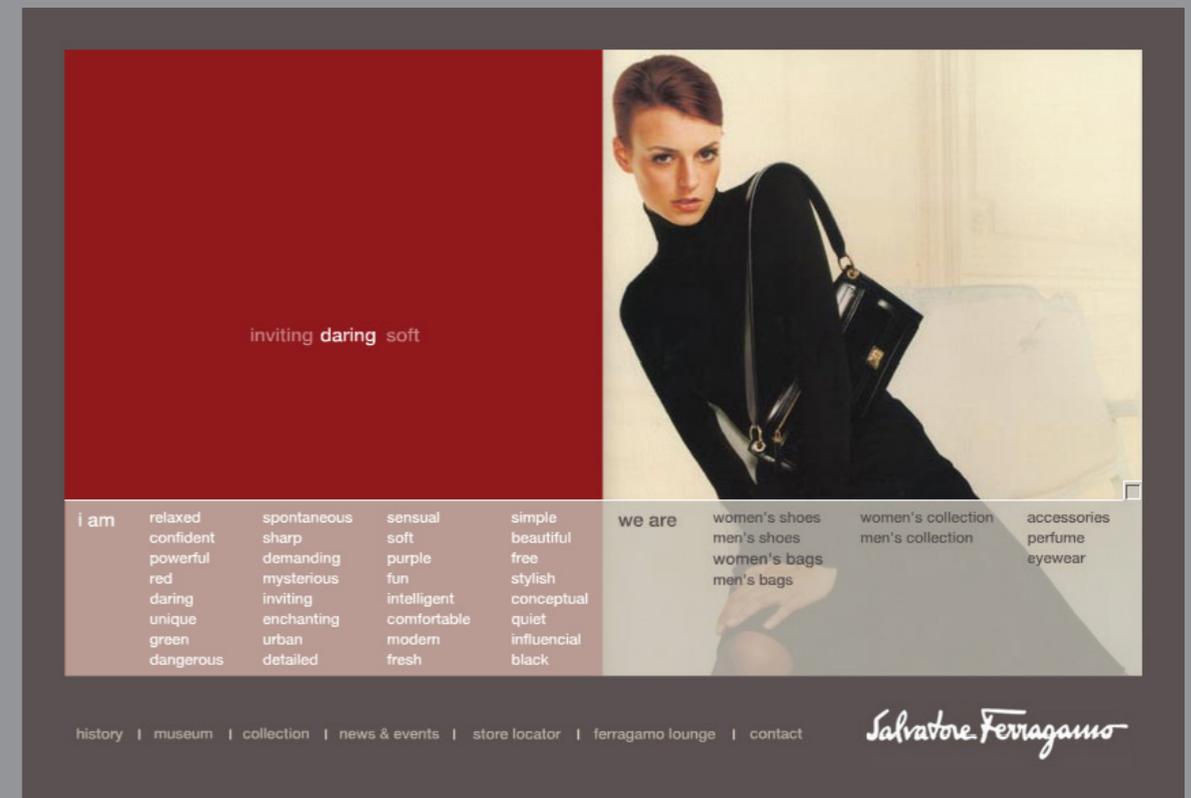

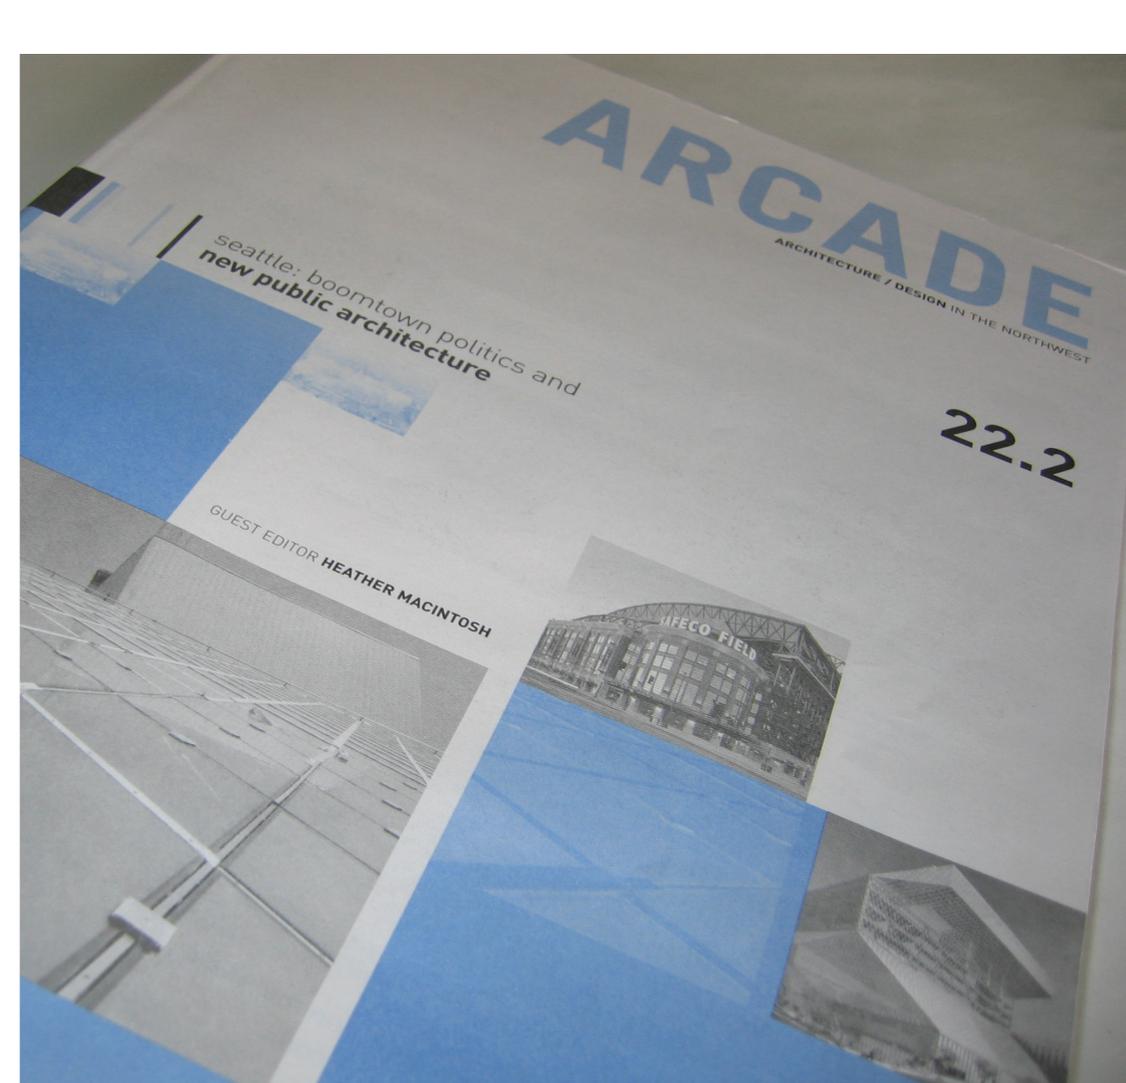

Design Evolution

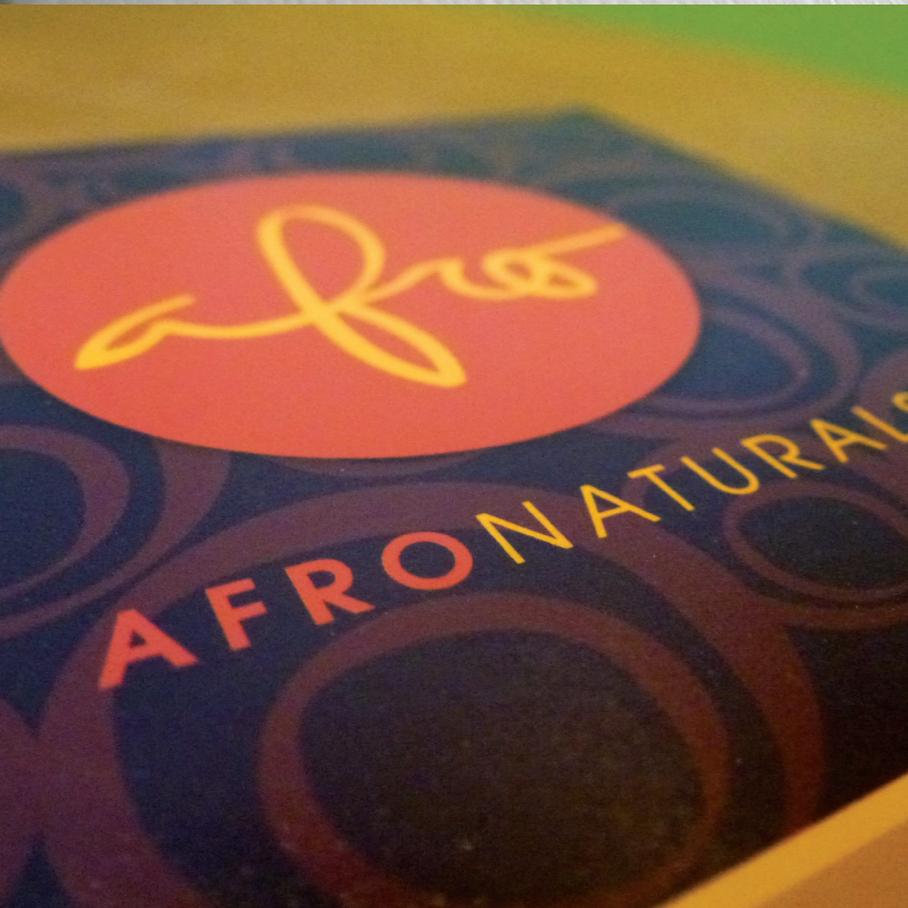

In 2000, moved the studio to Milan and was forced to refine design style

Design became more polished, timeless, and marketable

Now I use aspects of both to craft my designs

Building Peace in Kosovo

Background

Kosovo is one of the poorest countries in Europe, with a long history of conflict between its Albanian and Serb populations. Kosovo's cities have experienced rapid growth in recent years, and there is a growing need for well-designed public spaces that can be enjoyed by everyone.

Pristina was one of the first sites in Europe selected by UN-Habitat to test the Block by Block methodology for upgrading public space. The initial project focused on revitalizing a former green market in Sunny Hill, one of Pristina's largest and most populous neighborhoods. The site's temporary market structures had been removed, leaving an abandoned, concrete-covered space that was rarely used.

Pristina, Kosovo
Project type: Public market
Collaborators: UN-Habitat,
Municipality of Pristina

Covered market
space revitalization

Genç Demiri/UN-Habitat

...not only demonstrated the
...process but really gave people
...new residents in the area, and Block by
...Block gave them a path to come together in
...a positive way.

Lynia Wever, Masing

Building Peace, Block by Block

In September 2015, more than 70 Pristina residents participated in a Block by Block Workshop to redesign the Sunny Hill marketplace.

After initial discussions on urban design, the participants divided into small teams to model solutions. The participants then co-created the final design on a multiplayer Minecraft server, based on the ideas generated by the teams.

The designs were presented to a wide audience of urban professionals, including the mayor of Pristina. The final concept featured a range of facilities addressing the needs of various groups, including gardens, comfortable resting places, a playground, and Kosovo's first skatepark.

3D Minecraft Model of Community-Designed Public Space in Pristina, Kosovo

Progress

The 17 team proposals and the final concept were used as the basis for detailed architectural designs, which are now being built. The project has turned a deserted market into an appealing, multifunctional public space. The success of the Sunny Hill project inspired a similar initiative in Mitrovica, 25 miles (40 km) north of Pristina.

In my project I wanted to see a skatepark. Now something I made is being built in real life!

Lian Loxha, youth participant in Pristina

building

Lake Washington embodies the best of Western Washington: clean water, bountiful recreational opportunities, striking mountain views, and access to thriving cities. These qualities have inspired thousands of people to make their homes on the shores of the lake, transforming a forested waterfront to a residential one over the past 100 years. This change has led to a variety of problems, including loss of important wildlife habitat and some of the area's natural charm, but lakefront homeowners are finding new ways to protect the lake.

This guidebook is about alternatives to the use of bulkheads and other shoreline armoring. Hard engineering is the currently standard approach for erosion control around the lake, but it has several negative impacts on nearshore habitats as well as the fish and wildlife that depend on them. More sustainable practices, referred to in this guidebook as green shorelines, use plants, beaches, and other natural materials to protect private property and the environment.

Green shorelines provide three types of benefits for homeowners:

1 they substantially improve habitat for Chinook salmon and other wildlife while maintaining shoreline stability;

they allow improved water access for homeowners and other wildlife while maintaining shoreline enjoyment

they offer more natural aesthetic that can add variety and seasonal interest.

While homeowners often find green shorelines attractive, many have concerns about effectiveness, reliability, building and maintenance costs, the permitting process, and the potential loss of lawn. This guidebook specifically addresses these and other concerns by assembling technical information from a wide range of sources and providing local examples.

Although the guidebook was written by the City of Seattle, the principles described here can be applied to homes all around Lake Washington. Additionally, most of the information provided here is relevant to Lake Sammamish. Technical advice in these pages is offered as guidance; it is not building code. In the case of any discrepancies, defer to local, state, and federal regulations for shoreline development.

Green shorelines are attractive, reliable, and sustainable. The idea of having your own beach is a major motivator for many people to buy waterfront property – why give up your beach for a bulkhead?

The 2011 Annual Report of the Petitions Committee's activities marks a new development in the history of the Committee itself, as the deployment of our strategic communication comes into bloom and encompasses several different channels to reach out to our natural audience: the European citizen.

I remain fully aware that this result could not be achieved without the involvement of every active Member of the Committee, with the support of our Secretariat-General of the Parliament, but we also have the past Members of our Committee to thank as well. It was the on-going effort to reach out, initiated and promoted by those Members and their commitment to the European peoples, that today allows me to fulfil the greater project and chair a Committee capable of better analyzing, engaging, and delivering a response to each petition received.

The challenges Europe faces everyday are gargantuan and symptomatic of the dire straits we are all called upon to walk through. But Europe has met and overcome challenges in the past and can do so again — the honour of having been recently attributed the Nobel peace Prize testifies to this. Solutions to so many critical issues, in the economic or environmental field for example, are not obvious and may not be as straightforward as many would have us believe, but if Europe pulls together with its citizens, solutions are within reach. If member states try to go it alone, they are generating a cruel illusion for their people and undermining the essential solidarity that Europe requires.

That the citizens and residents of Europe enjoy the fundamental right to petition the Parliament, which the fathers of the European project included in the Treaties, is something utterly relevant for today's challenges. European

citizens seem to share this sentiment and the steadily growing numbers of petitions with which we deal would seem to testify to that. Oftentimes, and our readers will be able to find clear examples of that in this very publication, citizens come to us for solutions, in the form of non-judicial remedies, and at the end of the petition's process they may find precisely what they were hoping for, reinstating confidence and faith in a European project which can at times intimidate the citizen but which must always work to protect and promote their interests. The petitions process is an additional reality is happening on my watch and feel honoured to address each and every one of our European citizens with a publication that aspires to inspire and engage more people in the interaction between the Parliament and civil society, local communities and everyone who has a contribution to make.

We are all very aware that the road to reach the European constituency is a long and winding one, with pitfalls and trials aplenty. However, it is our duty to work without hesitation and with the enthusiasm that only the European Parliament — can engender and usher. The petitions process in the European Parliament is a very simple and non-bureaucratic one. Yet the Petitions Committee is nevertheless engaged at the moment in the creation of a more contemporary and more effective internet portal to further enhance the petitions process in terms of efficiency and transparency and I hope that by 2013, the year of the European Citizen, this new facility will be operational and allow even more of you to become active Europeans.

Thank you to all petitioners!
ERMINIA MAZZONI

Conscious Sourcing

Thoughtfully crafted from farm to fork, we are good about setting the bars and the Chocolates because every aspect of the origin of our cocoa beans to the inclusions - is carefully curated and follows our rigid quality standards.

Seattle Chocolates began sourcing cocoa beans from the best Alliance Certified™ farms. Our core mission is to follow the best Alliance Certified™ seal, with other certifications as well.

Seattle Alliance certification offers a robust and comprehensive approach to sustainable agriculture that focuses equally on social equity, environmental protection and long term economic viability. Rainforest Alliance certification strictly prohibits forced labor and the employment of children under the age of 15 on certified farms; additionally, children of workers on certified farms receive access to education.

We continue to adopt other sustainable practices including eliminating palm oil from production is associated with certain environmental impacts; all of our products now use the coconut oil. Our packaging is also made from on sustainable; we use recyclable paper and vegetable-based inks and coatings.

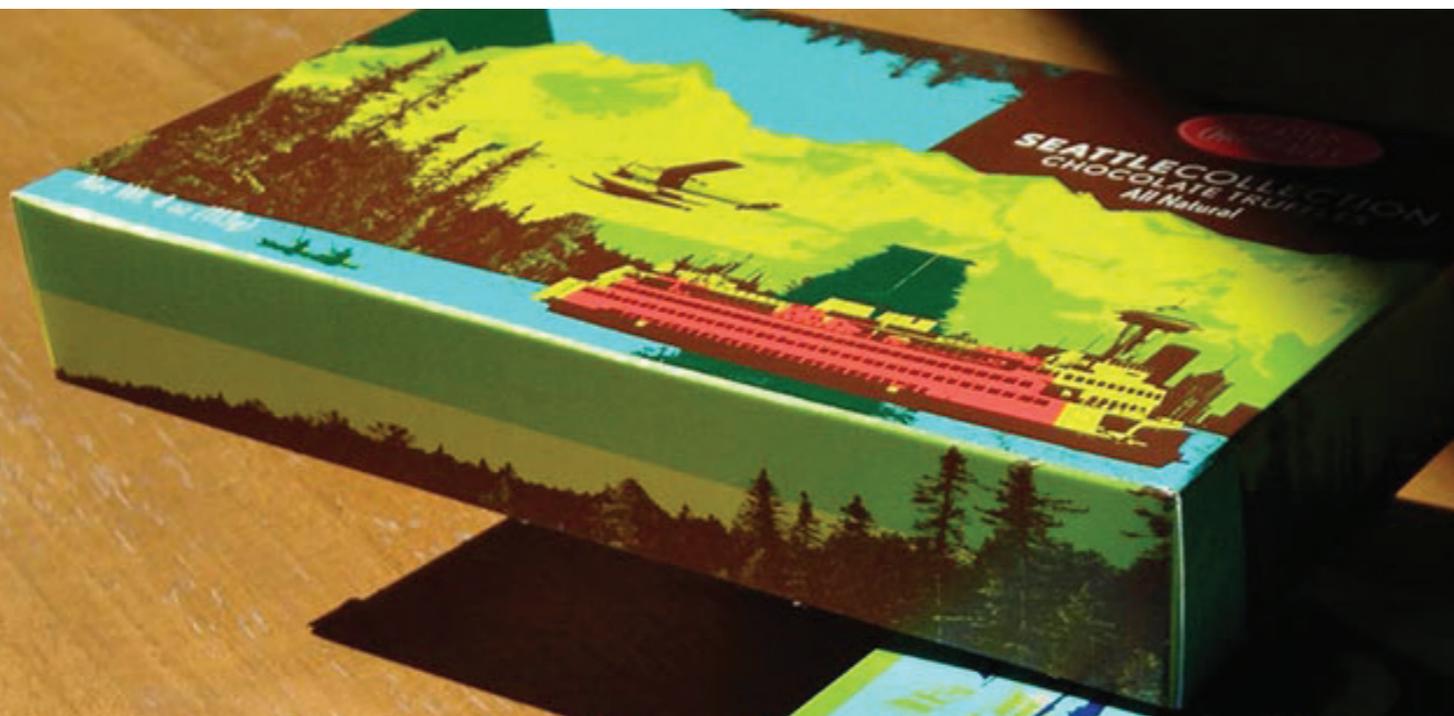

In addition to our ethical trade practices, Seattle Chocolates creates small batch chocolates using only the highest quality all natural ingredients with no preservatives, additives or stabilizers. Chocolates is also moving toward 100% non-GMO ingredients. Less than 1% of Seattle Chocolates' ingredients are currently included in our suppliers to verify each new ingredient.

All of our products are Kosher certified. Seattle Chocolates, led by Jean Thompson, is also certified by SQF (Safe Quality Food) Program and Women's Business Enterprise.

Why Swiss Style?

Clean, minimal design is like a rich, gourmet, vanilla ice cream... it goes with nearly everything and can be the base for countless amazing desserts.

Why Swiss Style?

The more you expose yourself to, and learn the fundamentals of designing in, the design style, the more successful you will be as a designer.

Key Elements of Swiss Style

- A. Uniformity and geometry
- B. Small, medium, large layout dynamic
- C. Whitespace
- D. Grid
- E. Simple, clean, minimal
- F. San-serif
- G. Font size as tool, impact, rhythm
- H. Photography, bold, clean, white space, etc.

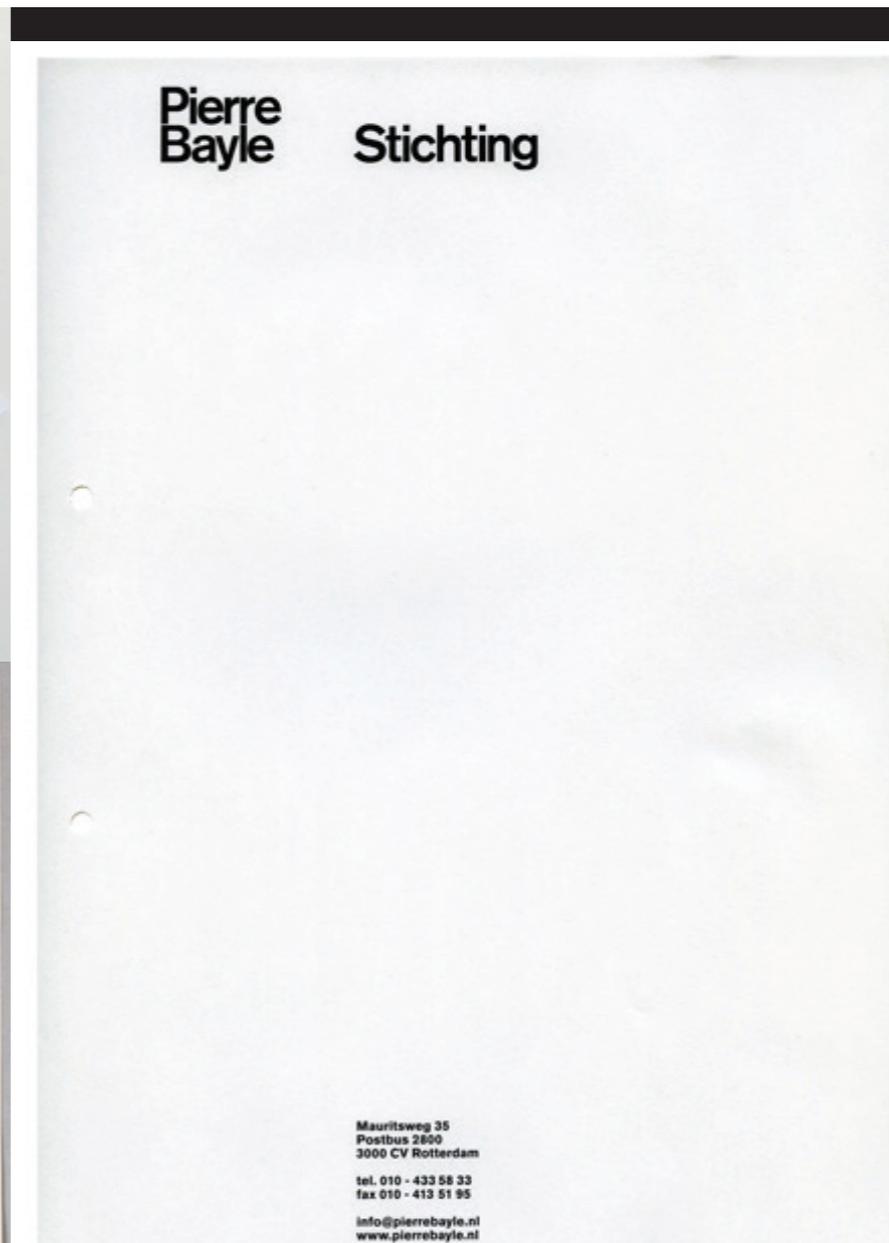

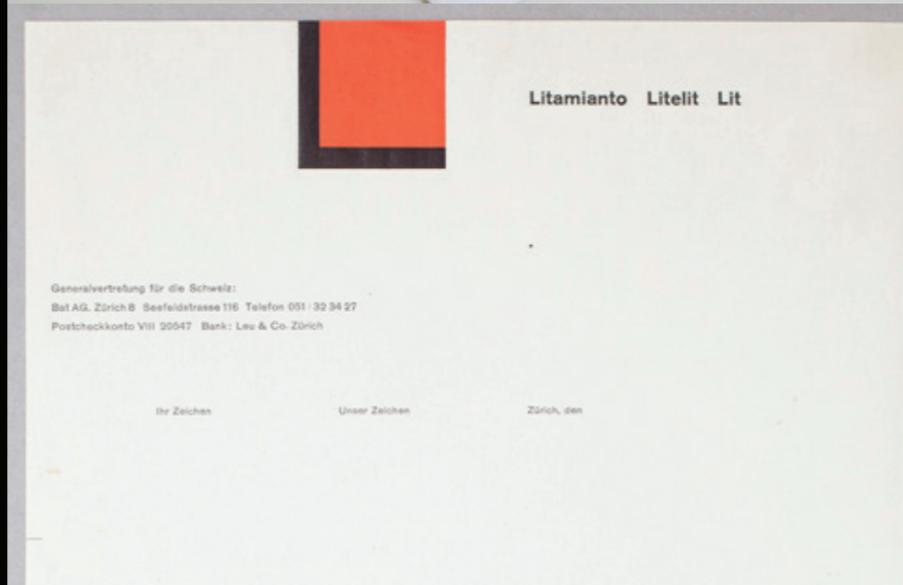

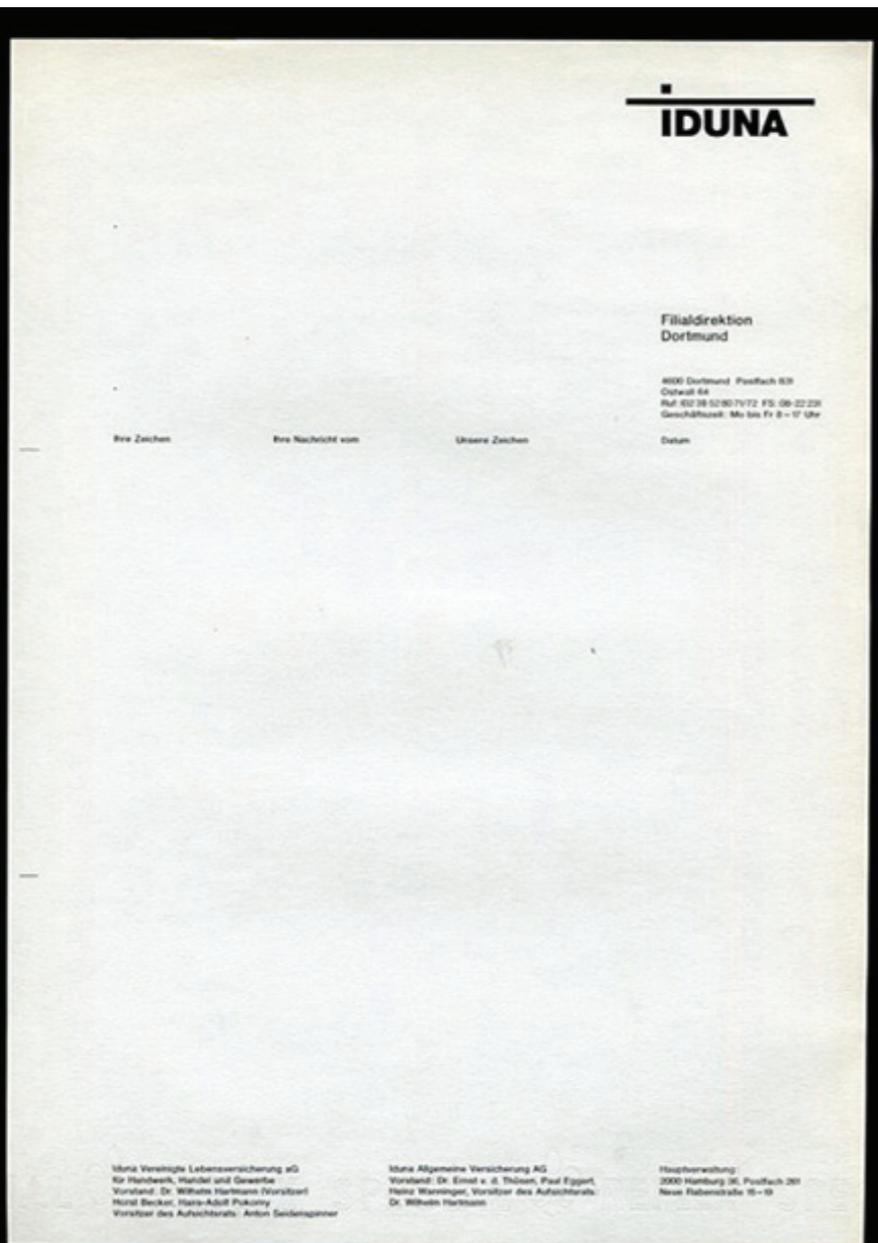

Minimal, Not Easy

Minimal, well thought out, well designed business cards stand out in a crowded world of designers, many of whom overdesign.

Minimal is Engaging

A well designed letterhead and resume stands out more today than ever due to our increasingly digital world.

Over Designed is Common

An over designed resume stands out in the wrong way. Minimal, clean, organized speaks much louder in the right way.

EXPERIENCE

+ CRAMER-KRASSELT / ART DIRECTOR INTERN
October 2009 — March 2010

I've had the opportunity to design for a number of projects across a variety of media (print, web, TV). Brands I've done work for include Car-Am, Ski-Doo, Kohl's, Spyder, InSinkErator, Monroe, Lofite and Johnsonville.

+ MILWAUKEE INSTITUTE OF ART & DESIGN
Communication Design (MFA) / Milwaukee, WI
01.2006 — 05.2009

Working through the Discovery Channel, this was an ad for the 4th season of *Mw* (w/ Bear Grylls). I was given access to the DC/ M/W photo archives and used a number of personal components to complete the composite in around a month.

+ HANSON DODGE CREATIVE / DESIGN INTERN
May 2007 — August 2008

While at HD, I worked on a variety of high-profile, active lifestyle clients assisting primarily with print/web. Duties included story/ mood boarding, identity design, photo selection + cropping and production design. Brands I designed for include *Trek Bicycles*, *Johnson Outdoors*, *Lycra*, *MGD 64* and *Horizon*.

+ MIAD / VR DESIGN GROUP
Spring + Fall 2008

Visual Resources is MIAD's in-house design group. Students had the chance to work with real clients within the Milwaukee area; attending meetings, working rigorous turnaround schedules + ultimately pitching their work to the client in a competitive

+ EISNER MUSEUM OF ADVERTISING + DESIGN / INTERN
May 2007 — August 2007

The Eisner Museum is a non-profit gallery of historical advertising located in Milwaukee. Over the summer of 2007, I helped design exhibition signage as well as the layout/presentation of various exhibitions.

EDUCATION

+ MILWAUKEE INSTITUTE OF ART & DESIGN
Communication Design (MFA) / Milwaukee, WI
01.2006 — 05.2009

OBJECTIVE

Creating user experience by focusing on usability and accessibility, bringing visual creativity to fit up the marketing strategy of the business and ensuring career goal through ultimate client satisfaction.

PROFESSIONAL EXPERIENCE

<p>ART DIRECTOR STEPS &</p> <p>With more than four years of professional experience, it is a great honor for me to join the Creative team + plan and execute the design strategy and implement the process in the real world. As an art director my role is:</p> <ul style="list-style-type: none"> Develop visual design plan Execute the design strategy Overseeing the visual aspect of a particular project as per the strategic visual plan Lead the team to implement the visual plan in the real world 	<p>PART-TIME</p> <p>2011 MARCH - PRESENT</p>
<p>FREELANCE DESIGNER & FRONT END DEVELOPER</p> <p>Being a freelance designer and front end developer is a great challenge where interpersonal communication skills are crucially mandatory besides technical skills. I have embraced this challenge and successfully built up a freelance career in the web + branding industry. The most important part of an art director design job is to:</p> <ul style="list-style-type: none"> Meet marketing and user experience strategy Collaborate with clients directly and respond the communication via a timely manner during ongoing period Building up project methodology, solving design problems and creating multiple solutions Maintaining client database and providing post-project client support 	<p>FULL-TIME</p> <p>2009 FEBRUARY - PRESENT</p>
<p>JUNIOR WEB DESIGNER AT ATTRABIT SOLUTION</p> <p>The starting of my professional career in a web design agency, learning professional trade in solving problems, solution via web development team directly and playing a role of junior team player</p>	<p>FULL-TIME</p> <p>2008 FEB - 2009 JAN</p>

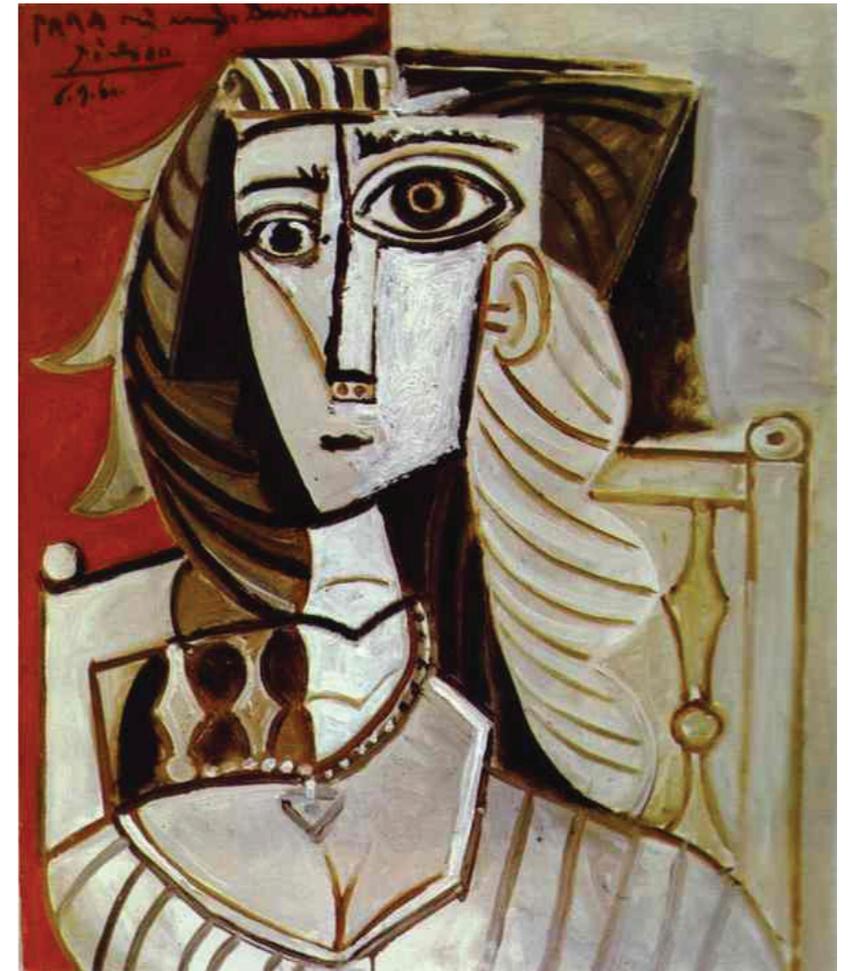

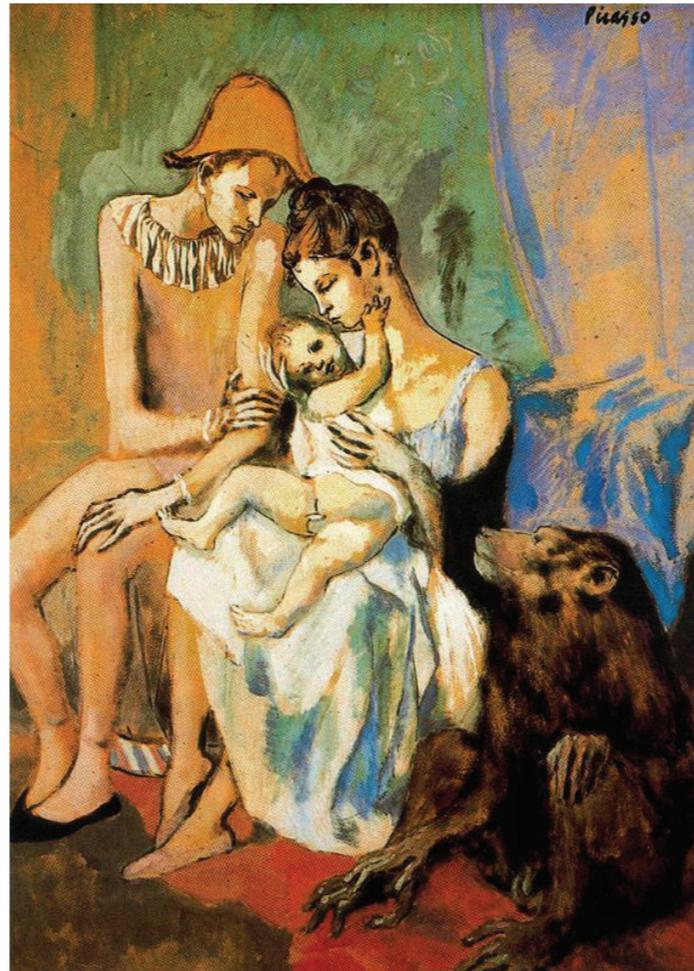

SKILLS & INTERESTS

<p>FRONT END DEVELOPMENT</p> <p>ADVANCED</p> <p>Adobe Creative Suite (CS2, CS3, CS4, CS5, CS6), HTML, CSS, JavaScript, jQuery, PHP, MySQL, WordPress, Joomla, Drupal, Magento, etc.</p>	<p>BRANDING & CORPORATE IDENTITY</p> <p>ADVANCED</p> <p>Adobe Photoshop (CS2, Adobe Illustrator (CS2)</p>
<p>UI/UX DESIGN</p> <p>ADVANCED</p> <p>Adobe Photoshop (CS2), Adobe Illustrator (CS2)</p>	<p>GRAPHIC DESIGN</p> <p>ADVANCED</p> <p>Adobe Photoshop (CS2), Adobe Illustrator (CS2)</p>
<p>PRINT DESIGN</p> <p>ADVANCED</p> <p>Adobe Photoshop (CS2), Adobe Illustrator (CS2), Adobe InDesign (CS2)</p>	<p>CUSTOM WORDPRESS THEME</p> <p>INTERMEDIATE</p> <p>PHP, MySQL, jQuery, HTML, CSS, Joomla</p>

ACADEMIC QUALIFICATION

<p>BACHELOR OF BUSINESS STUDIES</p>	<p>NATIONAL UNIVERSITY</p>	<p>2007 - 2009</p>
---	----------------------------	--------------------

SELECTED LOGO/ IDENTITIES

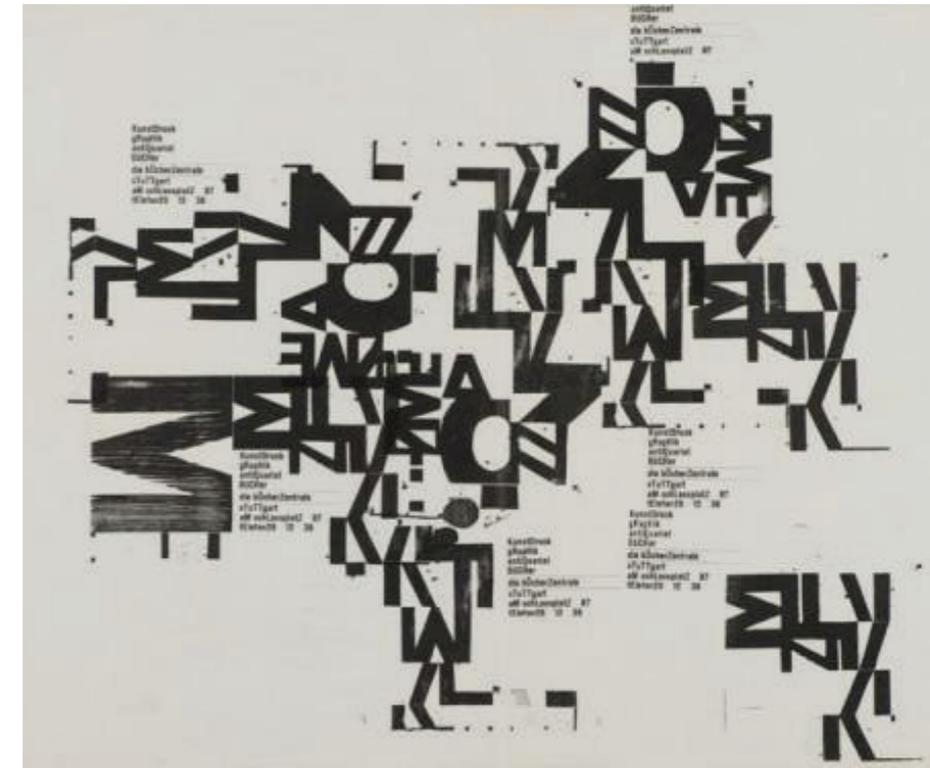

Build from a Solid Base

Knowing and understanding good basic fundamentals allows you to push beyond the ordinary.

Building on Type 1

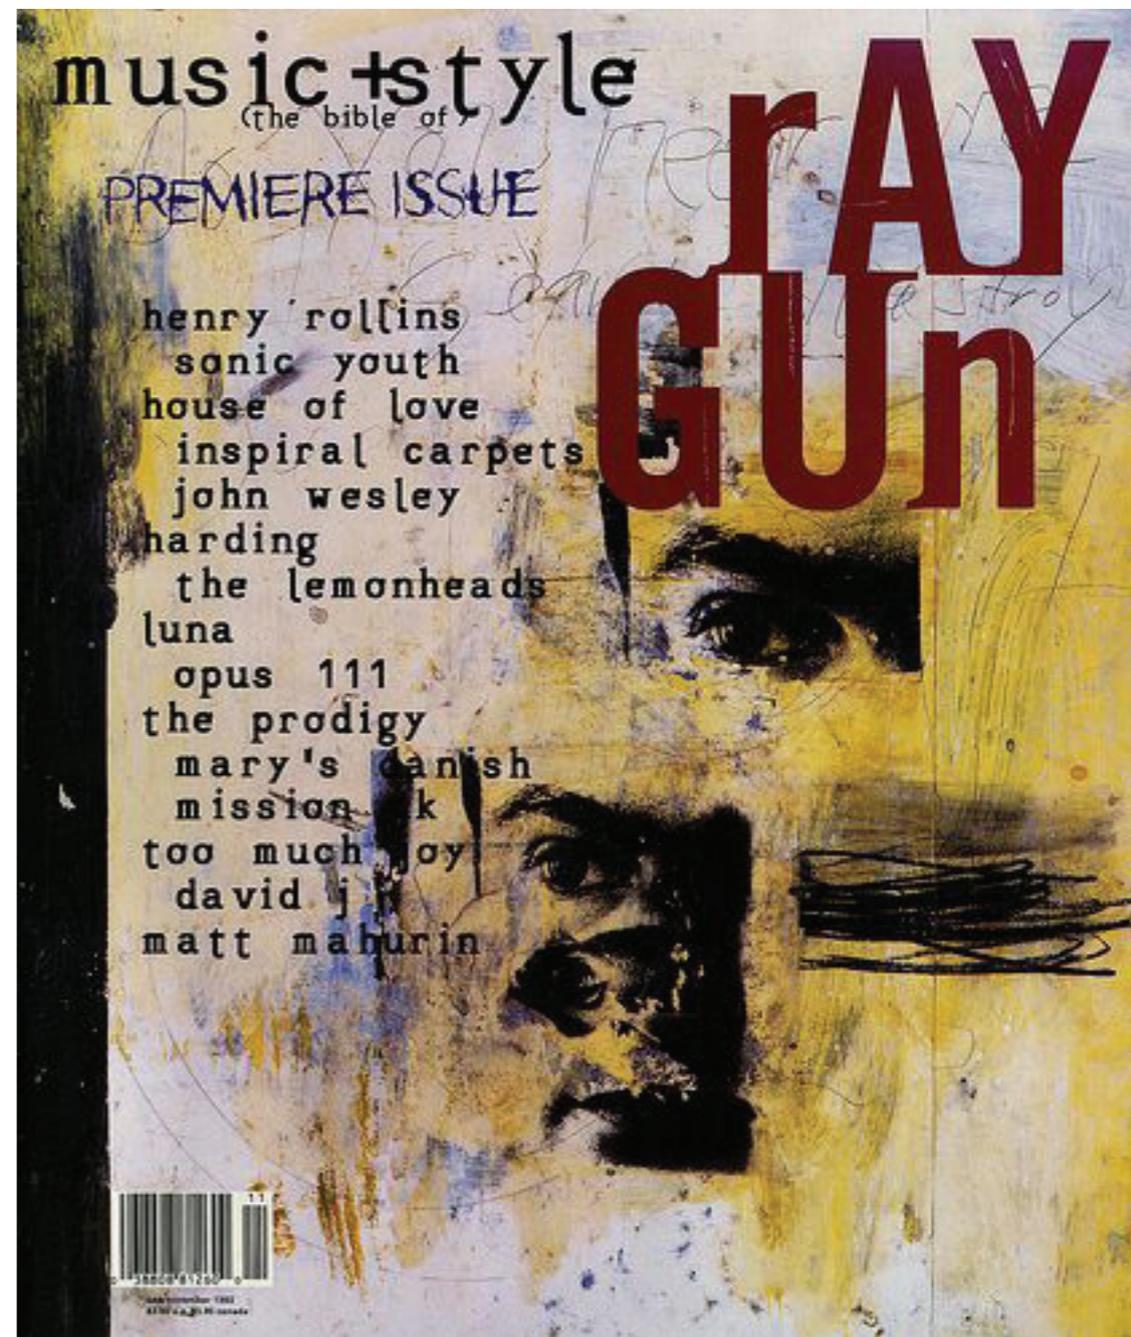

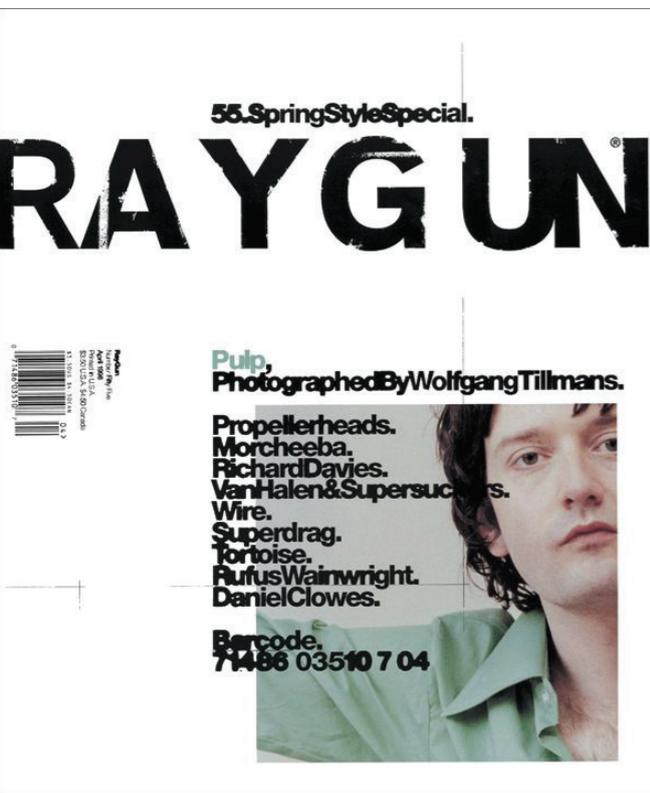

Think back to projects you did in Type 1 and build upon those concepts you learned for organization and space.

Organized Expression

Using a well organized, clean base allows for embellishments that enhance rather than distract. And, convey that you understand fine design.

Organized Expression

Using a well organized, clean base allows for embellishments that enhance rather than distract. And, convey that you understand fine design.

Organized Expression

Using a well organized, clean base allows for embellishments that enhance rather than distract. And, convey that you understand fine design.

Organized Expression

Using a well organized, clean base allows for embellishments that enhance rather than distract. And, convey that you understand fine design.

Course Goals

Provide students the opportunity to explore and design in the Swiss / International graphic design style.

Help students to create the initial base for a successful personal design system that will set them apart upon graduation.
